12. Shree Shyam Foods (Moogy)

OUR PRODUCTS

Shrink Wrapping Film

Shrink film/shrink wrap, is a material made up of polymer plastic film. When heat is applied, it shrinks tightly over whatever it is covering. We provide premium quality Shrink Wrap films for multipack and trays. Designed for high-performance products, our Shrink wrap film is ideal for plastic and glass bottles, cans and jars, and tetra packs of food, beverage, and household products.

Laminated Films

Shyam Kripa offers solvent based and solventless capabilities to deliver quality laminates in both roll and pouch form. We employ a broad range of materials in 2 and 3 Ply structures and also provide a combination of material comprising PET, Met PET, BOPP, Met BOPP, Matte BOPP, CPP, Natural Poly, White Opaque Poly and Multilayer Poly. These structures can be defined according to the product packed within, such as food, snacks, spices, confectionery, pharmaceutical and agriculture.

Liner Bags

We are one of the leading producers of General Flexibles, ranging from garment polybags to industrial liners. We manufacture LD Bags for packaging applications in most of the industries. These are manufactured from quality raw material, which makes their life span longer. We offer these in various sizes, shapes and thickness as per the requirement of the customer.

Dairy Packaging

Milk Films at our plants are extruded using virgin LDPE & LLDPE granules and printed using Certified and approved Food Grade Inks. Our supplies to the food industry for packaging of food products sees us following stringent health and hygiene practices at our factories. We manufacture milk film as per the standards requirement given by the customers.
